Transformation

According to Pastor Mboyamba:

Anyone who is compassionate and wants to help the DRC develop so that its people can have life and have it in abundance, as Jesus said in John 10:10, must know that the big problem in the DRC in general, and in the CPC in particular, is not so much material wealth, but rather the mentality and spirit that animate the population; a mentality and spirit on which we must work to liberate people in order to boost love and sense of work well done with the wealth at our disposal to honor God.

Transformation

It's not through the material comforts of our homes, cities and factories that people will understand the true meaning of loving each other and living in peace to honor God, the Creator.

Of all the methods or strategies to trigger true human development, Pastor Mboyamba asks for support for the work of witness to the life of Christ and Christian education that it is doing. He says that in the CPC's current context, "The witness to the Gospel is the key truth to human development".

Impact of seminars

From 2013 to 2023, for 10 years the CPC suffered conflict that threatened to divide the church. Last year that rift was healed. Pastor Mboyamba attributes this to the work of the evangelization department.

- Visiting each synod
- Preaching and teaching love, forgiveness and reconciliation.

Impact of lay training

Pastor Mboyamba gives credit to seminars for lay persons for the fact that some lay members are organizing to build beautiful church houses without outside support.

Accompaniment invited

Transportation

- Vehicle has become old and requires many repairs.
- Would like a Yamaha DT 125 motorcycle

Christian literature

- Many young people are misled to false doctrines by things they read.
- CPC wishes to again produce and print Christian literature

PC(USA) financial resources to support evangelism and Christian Education are very limited.

- A few small endowments
- Funds available from World Mission Director's office are few and have many demands made on them from other areas of the world.
